### Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: C1
- Price: 2200-5000USD
- Delivery Time: 20 days

### Product Specification

- Hose Length: 6 Feet
- Color: White
- Capacity: 1000L - 6000L
- Safety Features: Overfill Protection, Automatic Shut-off
- Material: Plastic
- Voltage: 220V
- Power Source: Electric
- Dimensions: Customized
- Highlight: electric mini gasoline station,  
mini gasoline station 1cbm,  
plastic mobile petrol station

## Product Description

### Electric Mini Fuel Station for White Plastic Material Market

#### Product Description:

Powered by electricity, this mini fuel station is environmentally friendly and cost-effective. It eliminates the need for costly and polluting gas generators, making it an ideal solution for businesses that want to reduce their carbon footprint. The Mini Fuel Station is also UL Listed and CSA Certified, ensuring that it meets the highest safety standards and is suitable for use in a wide range of industries. The Mini Fuel Station is packed with safety features that ensure that you can store and dispense fuel with confidence. The overfill protection feature ensures that you don't overfill your tanks, preventing costly spills and accidents. The automatic shut-off feature ensures that the fuel flow stops when the tank is full, preventing any further fuel from being dispensed. These safety features make the Mini Fuel Station ideal for use in industries where safety is a top priority.

The Mini Fuel Station comes with a 6-foot hose, which makes it easy to dispense fuel into your vehicles and machinery. The hose is made from high-quality materials that are designed to withstand the rigors of daily use, ensuring that it remains durable and reliable for years to come.

Overall, the Mini Fuel Station is an excellent investment for any business that requires a safe, reliable, and efficient way to store and dispense fuel. Its compact design makes it easy to store and transport, while its electric power source makes it environmentally friendly and cost-effective. With its UL Listing and CSA Certification, you can be confident that the Mini Fuel Station meets the highest safety standards and is suitable for use in a wide range of industries. So why wait? Invest in the Mini Fuel Station today and take the first step towards a safer, more efficient fueling solution for your business!

#### Applications:

**Small Businesses:** The Virette C1 is an excellent choice for small businesses that need a convenient and cost-effective way to fuel their fleets. Its small size and mobile design make it easy to move from one location to another, so businesses can refuel their vehicles wherever they need to.

**Farms:** The Virette C1 is also well-suited for farms, where fueling needs can be spread out over a large area. With its mobility and capacity of 1-8 CBM, the Virette C1 can easily be moved around the farm to refuel tractors, harvesters, and other equipment.

**Construction Sites:** Construction sites often have unpredictable fueling needs, and the Virette C1 is a perfect solution for these situations. Its compact size and mobility make it easy to move around the site, and its capacity of up to 8 CBM ensures that there is always enough fuel on hand to keep the equipment running.

**Remote Locations:** The Virette C1 is also ideal for remote locations where traditional fueling stations are not readily available. Its mobile design allows it to be transported to even the most remote locations, ensuring that fuel is always available when it is needed.

**Emergency Situations:** The Virette C1 can also be used in emergency situations where traditional fueling stations may be unavailable or inaccessible. Its mobility and compact size make it easy to transport to disaster areas or other emergency situations.

In addition to its mobility and versatility, the Virette C1 mini fuel station is also a cost-effective solution for fueling needs. With a price range of 1000-5000 USD, it is an affordable option for small businesses, farms, and other organizations. It also has a flow rate of 40-60 L per minute, ensuring that vehicles and equipment can be refueled quickly and efficiently. Plus, with a delivery time of just 20 days and a place of origin in China, the Virette C1 is a reliable and efficient choice for anyone in need of a fuel mobile dispenser or mobile gas station.

#### Packing and Shipping:

##### Product Packaging:

The Mini Fuel Station comes in a compact box that measures 10 inches in length, 8 inches in width, and 6 inches in height. The box is made of sturdy cardboard and features a product image and description on the front. Inside the box, the Mini Fuel Station is securely packaged in foam to prevent any damage during shipping.

##### Shipping:

The Mini Fuel Station is shipped directly from our warehouse and is usually processed within 24 hours of your order. We offer free standard shipping within the United States, which takes 3-5 business days for delivery. We also offer expedited shipping for an additional fee. International shipping is available for an additional fee and delivery time will vary based on the destination.

#### FAQ:

Here are some frequently asked questions and answers about the Virette Mini Fuel Station:

**Q: What is the Virette Mini Fuel Station?**

A: The Virette Mini Fuel Station is a compact, portable fuel dispenser designed for small-scale fueling operations. It can dispense gasoline, diesel, and other types of fuel into vehicles or containers.

**Q: What is the model number of the Virette Mini Fuel Station?**

A: The model number of our Mini Fuel Station is C1.

**Q: Where is the Virette Mini Fuel Station made?**

A: The Virette Mini Fuel Station is made in China.

**Q: How much does the Virette Mini Fuel Station cost?**

A: The cost of the Virette Mini Fuel Station ranges from \$1000 to \$5000 USD, depending on the specific model and any additional features or accessories.

**Q: What is the delivery time for the Virette Mini Fuel Station?**

A: The delivery time for the Virette Mini Fuel Station is typically around 20 days, though this can vary depending on your location and any customization or special requests you may have.
