Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: f0

Product Specification

- Float Included: Yes
- Compatibility: Universal
- Duty Circle: 30 Min
- Inlet Type: Strainer
- Sending Unit Included: No
- Warranty: 1 Year
- Outlet: NPT2"
- Engine: Diesel Fuel Engine Parts
- Highlight: **Outlet NPT2 Universal Fuel Pump,
NPT2 Universal Fuel Pump,
Inlet Type Strainer Fuel Pump**

Product Description

15Kgs Fuel Pump with Inlet Type Strainer and Sealing Ring Included 15Kgs

Features:

Product Name: Fuel Pump

Weight: 15Kgs

Compatibility: Universal

Warranty: 1 Year

Duty Circle: 30 Min

Type: Electric

Function: Gasoline Transfer Pump

Application: Filling Station Dispenser

Usage: Fuel Dispensing Pump

Technical Parameters:

Gasoline Transfer Pump	
Filling Station Dispenser	
Filling Station Dispenser	
Float Included	Yes
Outlet	NPT2"
Sending Unit Included	No
Weight	15Kgs
Sealing Ring Included	Yes
Type	Electric
Inlet Type	Strainer
Warranty	1 Year
Compatibility	Universal
Duty Circle	30 Min

Applications:

The Virette f0 fuel pump is compatible with a wide range of fuel types, making it ideal for various situations. It has a duty cycle of 30 minutes, meaning it can operate continuously for up to 30 minutes.

The Virette f0 electric fuel pump is a versatile product that can be used in several application occasions. It is perfect for use in petroleum transfer stations where fuel needs to be transferred from one tank to another. The fuel pump is also ideal for use in fuel dispensing pumps found in gas stations. It ensures a fast, efficient, and safe transfer of fuel from the pump to the vehicle.

The Virette f0 fuel pump is an excellent choice for diesel fuel injectors. It ensures that the fuel is delivered at the right pressure to the engine, which is critical to the performance and efficiency of the engine. The fuel pump is lightweight, weighing only 15kgs, making it easy to install and operate.

In summary, the Virette f0 electric fuel pump is a reliable and efficient product that can handle various fuel transfer scenarios with ease. Its compatibility with various fuel types, duty cycle of 30 minutes, and lightweight design make it a versatile product that can be used in many different application occasions.
