ul mobile petrol dispenser**

Product Description

Compact UL Listed Mini Gas Station Fuel Mobile Dispenser with Enhanced Safety Features

Product Description:

One of the most important features of the Mini Fuel Station is its overfill protection, which prevents spills and accidents that can be harmful to the environment. The automatic shut-off feature also adds an extra layer of safety, ensuring that the gas pump automatically stops dispensing fuel once the tank is full.

With a capacity of 1-8CBM, the Mini Fuel Station is perfect for those who need a small amount of fuel on-the-go. The dimensions of the station can be customized to fit your specific needs, making it the perfect solution for those who need a mobile gas station that can be easily transported.

The Mini Fuel Station comes with an automatic nozzle, making it easy to use and preventing spills. This feature is especially important for those who need to quickly and easily refuel their vehicles without the risk of spills or accidents.

Overall, the Mini Fuel Station is a reliable and safe solution for those in need of a mobile gas station. With its certifications from UL Listed and CSA Certified, overfill protection, automatic shut-off, and automatic nozzle, you can trust that this mini gas station will meet your needs while keeping you and the environment safe.

Features:

Product Name: Mini Fuel Station

Safety Features:

Overfill Protection

Automatic Shut-off

Flow Rate: 40-60L Per Minute

Application: Gasoline, Diesel, New Energy

Voltage: 220V

Model: C1

This mobile fuel station is a compact and convenient Fuel Mobile Dispenser that is perfect for small businesses or individuals who need a mini fuel station for their fuel needs.

Technical Parameters:

Nozzle Type	Automatic
Material	Plastic
Safety Features	Overfill Protection, Automatic Shut-off
Model	C1
Color	White
Flow Rate	40-60L Per Minute
Hose Length	6 Feet
Application	Gasoline, Diesel, New Energy
Voltage	220V
Certifications	UL Listed, CSA Certified

Applications:

The Mini Fuel Station is powered by electricity with a voltage of 220V, making it an eco-friendly choice for fueling. The Fuel Mobile Dispenser is easy to use and can be operated by anyone with minimal training. It is perfect for small businesses or personal use, providing a cost-effective way to fuel vehicles without having to travel to a gas station.

The Virette Mini Fuel Station is perfect for various application occasions and scenarios. It can be used for personal vehicles, including cars, motorcycles, and boats. It is also ideal for small businesses that have a fleet of vehicles, such as delivery services, taxi companies, and construction businesses. The mini fuel station can be placed in a central location, providing easy access to fuel for the entire fleet. Moreover, the Mini Fuel Station is perfect for remote locations, such as farms, construction sites, and mining sites. In these locations, it can be difficult to access a gas station, making the fuel mobile dispenser ideal for refueling vehicles and equipment. The Mini Fuel Station is also useful during emergencies, such as natural disasters, where access to fuel is limited.

The Virette Mini Fuel Station is priced between 1000 to 5000 USD, making it an affordable option for both personal and business use. The delivery time is only 20 days, ensuring that customers receive their product in a timely manner.

Overall, the Virette Mini Fuel Station is a reliable and practical solution for fueling needs. Its versatility and convenience make it an excellent choice for personal and business use. Get your Fuel Mobile Dispenser today and enjoy the convenience of having your own mini fuel station.

Customization:

Customize your Virette Mini Fuel Station to fit your specific needs:

Model: C1

Color: White

Hose Length: 6 Feet

Material: Plastic

Power Source: Electric

Place of Origin: China

Price: 1000-5000USD

Delivery Time: 20 days

Make your mobile gas station stand out with your personalized Virette Mini Fuel Station.

Packing and Shipping:

Product Packaging:

The Mini Fuel Station will be packed in a sturdy cardboard box with foam inserts to prevent any damage during shipping. The box will also have a clear label with the product name, description, and barcode for easy identification.

Shipping:

The Mini Fuel Station will be shipped via standard ground shipping. The shipping time may vary depending on the destination, but customers can expect to receive their product within 5-7 business days. Customers will receive a tracking number via email once their order has been shipped.
